

FASTILE TACTILE MATS

COMPLIES WITH THE AUSTRALIAN STANDRAD 4580:1999 FOR SLIP RESISTANCE AND 1428.4:2002 FOR TACTILES FOR VISION IMPAIRED

- FEATURES**
- PVC constructed tiles will not discolour in the tough Australian conditions allowing them to be suitable for internal and external applications
 - Each tile has a bevelled edge to prevent creating a trip hazard from uneven fixing services.
 - Large range of colours available to ensure there is a colour that meets your requirements

- FIXING**
- They come with a self adhesive backing which will stick to almost any flat surface
 - ready for use immediately after install (no curing time required)
